Reciprocity Wanted. The present deplorable condition of affairs in Nanaimo may well impress still more forcibly upon the thoughtful mind the great necessity of a Reciprocity Treaty with the neighboring nation. Nanaimo, really the largest producing community in the United Colony, is on 'strike.' The works of the Company are brought to a stand; and the pot of the miner has ceased to boil. It scarcely falls within the scope of our functions to discuss the merits of the dispute between the Company and its employes. That is a matter of business between the two parties; and itis presumable the Company ought to be the best judges of what they can afford to pay, on the one hand, and the miners ought to be the best judges of what they can afford to work for, on the other hand. In so far, therefore, as the dispute between the two parties is concerned, all we can do is to express regret that the Company should have thought it necessary to attempt a further reduction in the price hitherto paid for taking out coal, and that the miners should have found themselves unable to submit to that reduction. But there is one feature of this subject which we may venture to discuss, affecting, as it does, the public interest. What are the circumstances which have led the Company to the conclusion that it is necessary to reduce the price paid for taking out coal? Why are there 25,-000 tons accumulated in the bins? Chiefly because our coal is met at Sen Francisco, our sole present market, by a duty of one dollar and twenty-five cents per ton. In order to assist in reducing the price of coal so as, in some measure, to overcome that crushing impost, the Company proposed to take twelve and a half cents per ton off the miners' wages. Why do the miners find themselves unable to submit to a reduction apparently so wrifting? Chiefly because, under the present tariff, they have to pay such high prices for the necessaries of life. Everything they eat, drink and wear is too heavily tax ed. On every barrel of flour they have to pay twelve times twelve and a half cents in customs duty alone. On every gallon of spirits they have to pay twen-ty times twelve and a half cents in customs duty alone. On every gallon of beer they have to pay 15 cents duty, or a protection price for the home made article equivalent to it; and so on with everything consumed. Thus it is that the coal miner cannot afford to abate even to the extent of 12½ cents a ton ou the price of taking out coal. He is, in fact, paying more than that 12½ cents in the increased price of living consequent npon the high rates imposed under the existing tariff. Where, then, is the miner to look for relief? The Canadian Tatiff would bring a large measure of relief; but the fuller measure of relief must be looked for under a treaty of reciprocity with the United States. By that means our coal would enjoy a ready market, and there would no longer be any need to have the bins full, or to 'dock' the hard-working miner 124 cents a ton. By that means the chief articles of food necessarily imported would come in free as the wind which would then wait fleets of American shipping to our shores. . Under the Canadian tariff and a reciprocity treaty the miners could not only live well, but they would be enabled to lay by in store for 'a rainy Those, therefore, who oppose the acceptance of the Canadian tariff, and would, consequently, exclude this colony from all participation in the benefits of a reciprocity treaty almost certain to be negotiated before long between the Dominion and the United States, must be regarded as the enemies of the coal miners, and, indeed, of every other class -the common enemies of general development and industrial progress. must endeavor to free ourselves from this miserable, hidebound system at home and seek a free and enlarged market for our productions abroad. It is thus that we shall find the true remedy not only for the evils under which the develop-

Before Mr Justice Pemberton, FRIDAY, Oct 7th, 1870.

South vs McMillan-This is an action brought for the recovery of \$15, being one month's rent of premises lately occupied by

There are some points respecting leases from year to year, or for other recurring periods, which deserve attention. Independent of any local custom the law presumes hat a tenancy at a rent, whether payable amountaily, half-yearly or quarterly, (4 Taunt. 131) the duration of which is not express agreement is a tenancy from year to year; that is to say, a tenguey which, until determined by noice or surrender, is impliedly renewed at the commencement of implicaty renewed at the commade to cease each year, and which may be made to cease on any anniversary of the day on which it commenced by half a year's notice. A notice commenced by Dani a year 3 notice. A gottoe to quit on any other day, or a netice to quit not given in time, is ineffectual, (W. B.C., 596, 3 Camp. 509). But there may be an agreement that quarter's notice or a month; agreement that a quarter's notice or a month; a notice shall be sufficient, though even this will not authorize anotice to quit, on any other day than the anniversary of the commencement of the tenancy, unless an intention to that effect is clearly indicated. If either party waive the notice which the tenant will do if he keeps possession beyond the expiration of the year—though this may be explained—6 Nw & M, 428; and which be explained—6 Nw & M, 428; and which the landlord will do if he receives rent for a subsequent period, or otherwise acknowledge the tenancy to be subsisting it goes on as before until determined by a fresh notice to be acted upon. And if a tenant for a term certain keep possession after the expiration of the term and nay rent. that continues. of the term and pay rent, that constitutes a

tenancy from year to year.
Blackstone vol. 2. p. 144—In leases for yours an actual entry is necessary to vest the years an actual entry is necessary to vest the castate in the lease, for the bare lease gives him only a right, to enter, and when he enters in pursuance of that right, he is then, and not before, in possession of his term and somplete tenant for years (Oc. Litt. 46).

Biackstone, vol. 2, p. 314—Reference has been made to the lease to Higgins. This lease is either a wood one or a bad one; if

been made to the lease to Higging. Inis lease is either a good one or a bad one; if a bad one, it is invalid and therefore can not affect the present case; if good, the refusal of the defendant to give up possession is of no benefit to him, the rent being due and unpaid, and the leaser not having assigned his reversion [Aroub. p. 135]. But it may have endered the plaintif liable to an action for non-performance of his contract to paction for non-performance of his contract to Higgins; for where there is a sufficient de-mise of prem ses the law implies a promise mise of prem ses the law implies a promise by the party demising to give possession to his tenant; and assumpsit lies against the party letting for the breach of such promise. (Coe vs Clay 3 M & P, and W 307, 311):

(One vs Clay 3 M & P, and W 307, 311); Chitty on Contracts, p 282.

The general rule is that a tenant is stopped from disputing his landlord's title (Florning v Gooding 10 Buig, 549). The payment of reut implies and admit a tenancy and is strong prima facie evidence against the tenant of the landlord's title.

ant of the landlord's title.

Having carefully considered all the circumstances of this case I fail to see any legal ground which the defendant has for refining to pay the sum claimed by the plaingal ground which the detendant has for re-furing to pay the sum claimed by the plain-tiff. When a party holds premises under a void lease, the payment and receipt of reat is evidence from which a demise from year to year will be presumed (Doe & Pennington v Taniere, 18 L J. Q B 49).

Chitty p 289.

MORMONISM PRACTICALLY EXPLODED. - AC. cording to some exchanges, there is taking place a virtual dissolution of Mormonism. Governor Shaffer, of Utah Territory, having adopted a very decided policy which, to a great extent, subverts the power and authority of the False Prophet. It is not believed that the idea of emigrating to the Sandwich Islands is seriously entertained.

IMPORTANT DECISION .- We give the decision of Mr Pemberton in the case of Smith vs Me-Millan, in full. The decision has an important bearing upon the relations of landlord and tenant, and its publication may prevent and tenant, and its litigation in future.

BELLINGRAM BAY. - Our correspondent writes under date of Oot 2d :- This place has now more of a business aspect than it has bas now more of a business aspect than it has had at any time since my arrival. The coal mines are in working order: The bark Scotland is now loading and the bark May Balle Roberts is waiting to be loaded. Pound room having now been provided in the mine for the water which suddenly and unexpectedly broke in a short time ago, the working of the mines are no longer impeded by it. And here I ought to correct an error which I made in my communication of Sept 13, viz, that the water coming into the mine was gaining und the engine although the latter was kept running right and day. Mr Meyera, upon the engine although the latter was kept running right and day. Mr Meyera, the managing superintendent of the mices, assures me that such is not the case—that the water never did gain upon the engine, and that the delay in working the mine was caused by the making of additional pound-room for the water. I am also bound in justice to that gentleman to say, from my own personal observation and enquiries upor the spot, that even though the influx of water into the mine had been sufficient to entirely stop the working of the mine, yet no blame could possibly attach to the mining engineer, as no human prescience could pos-sibly have foreseen the probability of its invasion. It is now, however, completely under control.

A MUCH NEEDED IMPROVEMENT IS NOW in progress at Samuch Inlet opposite the hotel of Mr Eckstien. A substantial wharf is being put up by Mr Thompson, Mr Eckstien, Mr Marcotte and others. It will be built at a point accessible to the Sir James Douglas and where she may receive or discharge cargo at any stage of water. Its construc-tion will render the transportation of produce and supplies to and from Victoria and Sasnich by water quite feasible.

SAN FRANCISCO, Oct 6—The excitement over the run upon the Hibernica Bank is manifestly on the decline this evening. None of those engaged in making the run appear to have the eligitust iden why he or she did so, and some who withdraw their money now declare their intention to redeposit. The Bank has nearly \$12,000,000 loaned on productive real estate, and a circulating fund of over \$3.840.000 immediately available. There is, not a shadow of foundation for any unfavorable reports as to its complete solutions.

It is stated that the Gould & Curry will declare a dividend of \$10 per share to-morrow.
This, after four years of unproductiveness, strengthens the confidence of operators.

PARIS.

These different medicines represent the most recent medical discoverios, founded on the principles of Chemistry and therapeutics. They must not be confunded with secret or queck rue icines, as their names sufficiently indicate their composition; a circumstance which the saused them to be apprecariated and prescribed in the public paper those numerous medicines advertised in the public paper as able to cure we're' possible disease, as they are applicable only to but a very few complaints. The most stringent laws solts in France, with regard to the sale on medical preparations, and only those with Medicine, and have been proved efficacious, either in the Lospitals, or in the practice of the first medical men, are authorised by the Government. This fact must be a guarrantee for the excellency of MESSES, GRIMAULT & Co's medicines.

Women's and Children's Diseases.

Grimault's Syrup of Iodized Horse Radish.

REPLY.

TO ELECTORS OF NANAIMO-COMOX DISTRICT, GENTIAMEN:—In response to the Requisition you have been kind enough to present to me ! theorefully consent to be put in homination for the representation of your District in the Legislative Council; and, in doing no, it will hardly be necessary to assure you that, if elected, my bost offorts shall be earnessly directed towards promoting the interests of your District in particular, and those of the Colony in general.

In according your nomination and solisiting the next.

moting the interests of your District in particular, and those of the Colony in general.

In accepting your nomination and soliciting the suffrages of the District, it may be expected that I shall, in accordance with long established custem, indicate the outlines of my political creed; and you they promisence with the properties of th

of taxation for Federal purposes and would clear or animal late industry.

A Reciprocty Troaty with the United States, under which our coal and other products might fired an oper and ready market, I conceive to be amongst the most urgent needs of the colony; and any feasible movement tending thereto shall ever have my carnest and hearty tending thereto small over the young must ever be regarded as one of the first duties of a c. rillized government, and I cannot hesitate, to say that the existing educations system is as the provisions thereunder are inadequate to the circumstances and necessities of the

system is as intensional and indequate to the crountry.

Jipon the subject of Retrenchment in the governmental expense, it will only be necessary to say that the most effective remedy will be found in Confederation with Responsible Government.

It need only be added that, in seeking to carry out my views upon these and other questions, I shall, if olicited, over regard P as a first duty to see that your District—among the most important and productive in the united colony—shall have its full share of registalive attention and expenditure of which it has been so no toriously and unjusty deprived in the past.

Intending, as I do, to take an early opportunity of visiting every part of the District and meeting the electors personally, and expounding more fully my political views, I trust these few hasty and general remarks may suffice for the present.

I have the honor to be, Gentlemen,
Your obedient servant,
